Our Experience

COFAD and its staff members have vast experience from assignments in Europe, Africa, Asia, and Latin America. In its 30 years of existence COFAD has carried out over 300 major studies and projects.

Our staff and resources

COFAD's permanent staff and associated experts cover all relevant disciplines and aspects of our field of activity. Our expert database comprises more than 1.000 experts.

COFAD is equipped with state-of-the-art Information Technology; the firm's continuously updated library comprises over 2.000 publications on fisheries and related fields.

Our philosophy and professional standards

Our expertise and professional experience enable us to apply a multidisciplinary and cross-sectoral approach to our work. We place particular emphasis on participatory, people-oriented planning and implementation, using proven and efficient methodologies, to encourage ownership and foster sustainable impacts of the projects and programmes for which we work.

The restriction to consultancy services and the strict independence of any suppliers and of other conflicting interests ensure that the client's interests always receive maximum attention.

COFAD adheres to the relevant national and international standards for consulting services. The company has introduced a quality management system and is certified in accordance with ISO 9001:2008 standards.
